SUMMARY

Backend Developer with 6 years of experience specializing in Golang and PHP (Laravel/Lumen). Skilled in developing and maintaining core backend systems, designing RESTful APIs, and improving database performance (PostgreSQL/MySQL). Experienced in migrating legacy systems to microservices architecture and contributing to large-scale financial and HR products. Adept at conducting code reviews and mentoring teammates.

EXPERIENCES

Backend Developer | PT. Zahir Internasional

Feb 2022 - Jun 2025

- Delivered 10+ new features and bug fixes across four core products (Zahir ERP, Zahir Online, Zahir POSX, Zahir HR), enhancing functionality for over 500 clients.
- Maintained the core PHP backend and contributed to the Go migration. Handled schema enhancements, critical bug fixes, and developed key reporting endpoints in production.
- Prototyped migration of the report-generator service from Node.js to Golang, resulting in a significant memory usage reduction.

Programmer (Backend) | Universitas Islam Indonesia

May 2019 - Des 2021

- Migrated legacy fingerprint attendance to an online microservice, transferring over 2,000 records per workday and serving over 3,000 staff during COVID-19, reducing physical contact and manual handling.
- Developed a database migration microservice to move Microsoft Access attendance data into MySQL, automating data flow and minimizing manual errors.
- Built a microservices-based employee management system used by multiple domains (academic, admissions, finance, and other teams), standardizing data and workflows.
- Onboarded and mentored 8+ new colleagues through system walkthroughs and knowledge-sharing sessions, accelerating their familiarity with the platform.

Intern Web Developer | Komuri GeekGarden

Nov 2017 - Dec 2017

- Contributed to several company tasks using Laravel.
- Developed a simple project management application using Laravel.

Web Programming Lab Assistant | Universitas Islam Indonesia

Mar 2017 - Jun 2017

- Delivered web programming lectures and hands-on sessions covering HTML, CSS, JavaScript, jQuery, and PHP.
- Mentored five groups of two students (10 students total) throughout the semester, guiding them through course assignments and project work.

EDUCATIONS

Universitas Islam Indonesia | Informatika | CGPA: 3.76

Sep 2014 - Feb 2019

SKILLS

- Technical : Golang, PHP (Laravel/Lumen), MySQL, PostgreSQL, Manual Testing, Code Review, Basic HTML/CSS/JavaScript
- Soft Skills : Teamwork, Problem Solving, Mentoring
- Tools : Git, Kafka Connect
- Language : Bahasa Indonesia, English
